

What our customer's say!

SUPPORTING TEACHERS REMOTELY

“Senso is a truly valuable solution that has made a huge contribution to network management across multiple schools in the Trust. Now throw in safeguarding, along with classroom and asset management and you have something that every Network Manager needs, and an array of school staff are also very thankful for! I would not want to be without it any time, but even more so during the current situation (COVID-19 lockdown), proving it’s worth by providing the ability to support staff using their laptops at home too. Add to all of this, a team of people who continually go the extra mile for their customers and you have a product that is worth every penny and I wouldn’t hesitate to recommend it!”

Irene Hand | Unity Trust Ltd

REMOTE SUPPORT

“Having used Senso from the very beginning it just gets bigger and better and in a time of need it really helps being able to manage & remote support all our MAT School users wherever they are. It all makes perfect Senso!”

Neil Beards | Manor Multi-Academy Trust

REMOTE SAFEGUARDING

“We have deployed a number of student loan laptops to take home, and with Senso being cloud based, it allows us to continue to monitor them from a Safeguarding perspective remotely. It doesn’t require any additional configuration; just install the client and you’re done!”

Adam Burn | Kettering Buccleuch Academy

THANKS FOR A GREAT PRODUCT!

“I don't know how I would function without Senso right now! The ability to view students' screens is extremely important for helping them and sending messages (or warnings!) to students. I also have a policy in effect to block the internet during night-time hours. Thanks for a great product.”

Kevin O'Donnell | Belmar School District

INSTANT SUPPORT FROM ANYWHERE

“Senso has given me the ability to manage multiple sites, without the need for any complex onsite installs. The feedback from staff I am supporting is very positive. We have been able to offer instant support from anywhere.”

Simon Eades | Wigmore School

SENSO HAS BEEN INDISPENSABLE

“Senso has been indispensable in this situation. We have been using it heavily for remote support of teachers learning how to do online instruction while in their homes.

It has been extremely helpful for us to be able to mirror their screen and talk them through their questions. It has also been helpful from an "IT" support standpoint of being able to install software (any typing in admin credentials for the install) and putting in product keys when needed. Teachers have also been using it heavily in supporting students logging in to new learning management systems and other products. It is helpful for them to see the student screens so they know exactly what the students are seeing and can help.”

Jason Carbaugh | Central Fulton School District

COVID-19 RESPONSE

“The ability to support our staff inside and outside of school is critical to maintaining the effective use of IT in the delivery of the Stowe Valley MAT's COVID-19 response. We are able to offer support on all our services away from the schools and it proves day after day to be a mission critical tool for IT Support for our schools on our Cloud Based platform.”

Stephen Hardy | Stowe Valley Multi Academy Trust

SENSO TO THE RESCUE

“Senso to the rescue! I am thrilled to have the capabilities in Senso during our move to remote learning. As an IT director, I can quickly remote into students' devices for troubleshooting and running scripts.”

Rashantha De Silva | HTLA

SENSO'S SAFEGUARD PACKAGE

“Senso is the next generation of Cloud Classroom Management. Being the only IT person in the College, senso.cloud gives me the tools to really crack on with my current environment whilst helping Staff and Students with any issues.

Senso.Cloud also allows me to get staff participating and to take control with this technology which is rare in Education Sector. Senso.Cloud Safeguarding package keeps up to date and adds another layer of security for the Staff or Students using devices on our network.”

Chris Maddocks | Hayling College

SENSO SAVES US TIME AND MONEY

“The ability to remotely manage all of our trust schools from one cloud-based platform, not only saves us time in manpower, but also money without the need to visit the site.”

Mark Fuller | NEMAT

“It’s a game changer!”

Tom Jarman | NEMAT

OUR PUPILS REMAIN SAFE

“Senso’s Safeguarding features in particular have allowed us the peace of mind to know that no matter when or where pupils access our devices we can monitor and receive alerts about any inappropriate activity to ensure that it is dealt with appropriately and our pupils remain safe.”

Alan Hughes | Rock SALT Solutions Ltd

SUCH AN AWESOME PRODUCT!

“Just wanted to thank you guys for making such an awesome product! The ability to continue supporting our users when we are working remotely is beneficial as we all navigate this uncertain time.”

Lewis Wild | Cabot Learning Federation

TEACHING DONE REMOTELY

“Just wanted to say a big thank you for all your efforts. It’s made a huge difference to us during this hard time where 100% of our teaching is now being done remotely.”

Chris Marriott | Berkhamsted

SUPPORTING STAFF AT HOME

“Senso is easily the best option to be with during the current climate. Being able to support staff’s laptops at home with the same product we support them within school has been so awesome!”

James | Archway School

A TRUE MULTI-SCHOOL SOLUTION

“We’ve found senso.cloud extremely easy to set up on thousands of machines and incredibly quick and reliable to use which is impressive for a cloud based solution. Previous solutions involved utilising 21 hosted servers to spread the load of our 13,000 devices, with no way to easily switch between schools as it was designed for single school use.

Senso.cloud is a true cloud multi-school solution; all schools are accessible from the same portal making remote support a breeze. The support from Senso.cloud has been second to none, we feel like we can contact their support or developers knowing any queries will be dealt with in a timely fashion. The safeguarding element to Senso.cloud is remarkable. We are now able to see and spot common trends among students across all our schools all within one view, helping us support a plan of action with schools, protecting students from the dangers of the internet.”

Kirsty King | Telford & Wrekin Council

AN ESSENTIAL TOOL

“This is cloud-based remote management for the generation of cloud computing. An essential tool for a Network manager, usually this kind of software seldom comes without a painful install or laborious maintenance and configuration. Senso’s cloud-based technology removes all of the stress and hassle.”

Jim Turner | Chichester High School

THANK YOU FOR THE AMAZING UPDATES

“I just wanted to thank you for the amazing updates that you've made to Senso! In particular, the clipboard, multiple remote control sessions, and the upcoming ticketing system. It's not just me either, technicians across the company are feeding back positively too!”

Mark | Interm IT

HIGHLY RECOMMEND!

“We want to ensure that when students use technology at school they have the best possible learning experience and that they are safe.

We switched from Impero to Senso because of its expanded range of teaching tools, superior reliability and compatibility with our other safeguarding tools. There has been a seamless transition between the two systems for staff and I have complete trust that Senso is being used consistently across school to enhance learning and monitor behaviour. I highly recommend other schools make the switch too.”

Luke Borland | Hailsham Community College

AN ESSENTIAL PART OF OUR SAFEGUARDING TOOLKIT

“After trying a number of different monitoring and reporting products we were really pleased to find Senso. It is an agile and easy to use platform that allows us to remotely monitor a variety of devices in a very user friendly web portal. We now see it as an essential part of our safeguarding toolkit to protect our students, staff and data.”

Dawn Walker | Bentley Federation

CAN'T FAULT THEM!

“Senso has allowed our IT Team to expand our support beyond the barriers that we thought existed. Support is efficient and fast, and just understand the needs of our environment. Can't fault them! Every time I look, I see or hear about a new feature, and it's like they just know what we want!”

Matthew Taylor | Limehurst Academy

CAN'T WAIT TO SEE WHAT IS STILL TO COME

“After using other products in the past, we have found the account managers, training and support teams a dream to work with. Such an easy cloud based product to use and saves us hours on deployment.

Our customers have found the safeguarding tools invaluable and have worked perfectly during inspections. With new features released so quickly, we can't wait to see what is still to come and look forward to using Senso with many more clients in the future.”

Martin Wharton | Datacable Ltd

INTEGRAL TOOL IN SUPPORTING OUR STAFF

“Senso has become an integral tool in supporting our staff and pupils. The remote control features save us so much time providing support across a large campus and when users are working remotely.

The safeguarding alerts have been critical in keeping our young people safe. The behaviour management and screen broadcasting tools are indispensable to our ICT teachers who use Senso in every lesson!”

Adam Lloyd | Hardenhuish School

SENSO ARE A GREAT TEAM!

“Senso are a great team!

They will continue to support our team to cover eventualities that our schools will face. Senso are on an unrelenting mission to develop their software to support our team that wants to do so much more than just what is expected of them.”

Bradley Clegg | Co-founder Conzero

LOVE THE CLOUD-BASED APPROACH

“We love the cloud-based approach as well as the ability to work on any device with a web browser.”

Brad Gutwein | Warsaw Community Schools

GIVES ME PEACE OF MIND

“Senso works so well at keeping inquisitive minds focused on investigating the right things. It gives me the power to work collaboratively through sharing of screens along with distributing files and links to all my students. It gives me peace of mind that students use the computers responsibly.”

**James Searle | George Loczy
Queensbury Academy**

A TOOL WE CANNOT BE WITHOUT

“Senso.Cloud is the only product that can manage our clients through cloud and allow us to support users working at home! Senso is developing amazingly fast with lots of new exciting features and will soon be a tool that we cannot be without to do our jobs!”

Network Manager | Southall School

SENSO WITH A CAPITAL S FOR SUPERB!

“So pleased we made the move to Senso. Our Safeguarding and Remote Support for staff and students during Covid lockdown would have been severely hampered without it.

No Support query is too small, their feature request process is phenomenal and so quick and the webinar’s are so informative. Each new feature just adds to an already brilliant product. Senso with a capital S for Superb!!”

James Clark | The Duchess’s Community High School
