Remote Monitoring and Management

The Cloud-Based Platform for Remote Monitoring and Management

The Benefits of Senso.cloud

Switch to our cloud based Network and Classroom Management Solution today.

Cloud-based

Scale to millions of devices across multiple sites with centralised reporting and anywhere access in real time. Built on Microsoft Azure.

Modular

Features can be added or upgraded without re-deploying software. Choose only the features you need, saving money. Affordable but premium quality.

Simple Setup

No Server or Admin console software to install or maintain, just use a browser, on any device, from anywhere. Get set-up in minutes.

Cloud-based

Built using robust and up to date technology Senso.cloud is highly scalable, with fail-over and high availability to ensure smooth operation.

Secure

Using the highest verification certificate with TLS encrypted data communication and hashed modules.

Affordable

Simple, yearly subscription, paying for what you need makes pricing transparent and excellent value.

WHY CHOOSE SENSO?

What our customers say about us

ACCESSING MACHINES ON THE GO

With over 10,000 machines to manage and service...

Senso has allowed the engineers at L.E.A.D to have a single platform to access any machine and server on the go. Speeding up the time it takes to get to an issue so that users can be back up and running as quickly as possible.

L.E.A.D IT Services

A TRUE MULTI-SCHOOL SOLUTION

“We’ve found Senso.cloud extremely easy to set up on thousands of machines and incredibly quick and reliable to use which is impressive for a cloud based solution.

Previous solutions involved utilising 21 hosted servers to spread the load of our 13,000 devices, with no way to easily switch between schools as it was designed for single school use. Senso.cloud is a true cloud multi-school solution, all schools are accessible from the same portal making remote support a breeze. The support from Senso.cloud has been second to none, we feel like we can contact their support or developers knowing any queries will be dealt with in a timely fashion.

The safeguarding element to Senso.cloud is remarkable. We are now able to see and spot common trends among students across all our schools all within one view, helping us support a plan of action with schools, protecting students from the dangers of the internet.”

Kirsty King | Commercial Services Manager: ICT | Telford & Wrekin Council
