BOOST
REVENUE

Trackunit 401 SmartID offers a unique combination of telematics and access control for rental companies and contractors.

The new all-in-one unit is a practical, fast-to-install solution compared to existing products on the market - and this means lower costs for you.

Grant access to machinery with PIN codes and personal id cards, and you will always know who is operating your machines.

Adding value for your business

<p>Get more out of your resources</p> <p>Trackunit gives you a detailed overview of working hours of your machines and reveals if some machines can be utilized even more.</p>	<p>New business opportunities</p> <p>Grant quick and easy access to machines located at major construction sites and unmanned depots across the country.</p>	 <p>TRACKUNIT MANAGER WEB PORTAL</p>	<p>Enhanced security</p> <p>Get in full control of who has access to the machines. Provide access only to trained personnel and reduce the risk of accidents.</p>
<p>Measure performance</p> <p>SmartID makes it possible to measure performance of both machines and employees so you can optimise your business even further.</p>	<p>Invoice actual use of your machines</p> <p>Get a detailed overview of the leased machines' working hours and minimise abuse and inaccuracies in the settlement.</p>	<p>Fleksible administration of id</p> <p>Machine access is controlled from your pc or locally at the machine. New users can be created in the system swiftly and access with PIN.</p>	
	<p>Business Intelligence</p> <p>Gain a deeper understanding of how your fleet performs and how to invest for further growth.</p>	<p>Effective service planning</p> <p>The Service module provides an effective overview of scheduled maintenance on the machines so it is done efficiently and on time.</p>	<p>Accurate tracking</p> <p>At large project sites, you can quickly locate and identify your machines. In case of theft stolen machines can be tracked internationally.</p>

Flexibility and efficiency

Administration of PIN codes and id cards is easy - both at the office and locally at the work site. A PIN code grants users immediate access and save valuable time. It increases flexibility and simplifies work procedures - for you and your customers.

Trackunit 401 SmartID can be integrated with other id solutions on the market, and includes a master id card that gives access to your entire fleet.
